¹ The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.

² The FBI determined that the agency's data were overreported. Consequently, affected data are not included in this table.

³ The FBI determined that the agency's data were underreported. Consequently, affected data are not included in this table.

⁴ The data collection methodology for the offense of forcible rape used by the Illinois and the Minnesota state Uniform Crime Reporting (UCR) Programs does not comply with national UCR Program guidelines. Consequently, their figures for forcible rape and violent crime (of which forcible rape is a part) are not published in this table.

⁵ Because of changes in the state/local agency's reporting practices, figures are not comparable to previous years' data.

⁶ Tribal figures represented throughout Table 11 are included in the aggregated totals listed under the Bureau of Indian Affairs data.
