Climate Change and Indigenous Peoples
The Search for Legal Remedies

Edited by Randall S. Abate, Associate Professor of Law and Project Director, Environment, Development and Justice Program, Florida A&M University College of Law and Elizabeth Ann Kronk, Associate Professor of Law and Director, Tribal Law and Government Center, University of Kansas School of Law, US

'It is one of the world’s cruellest ironies that some of the earliest effects of climate change are being felt by indigenous populations around the world, even though they contributed no more than trivial amounts of the greenhouse gases that are at the root of much of the problem, and they are so politically and economically powerless that they played no role in the decisions that have led to their plight. At the same time, many of these populations are victimized by certain actions designed to reduce emissions, such as land clearing for biofuels cultivation, and restrictions on forest use. Professors Abate and Kronk have assembled a formidable collection of experts from around the world who demonstrate the diversity of challenges facing these indigenous peoples, and the opportunities and challenges in using various international and domestic legal tools to seek redress. This book will be an invaluable resource for all those examining the legal remedies that may be available, either now or as the law develops in the years to come.'

– Michael B. Gerrard, Columbia Law School, US

This timely volume explores the ways in which indigenous peoples across the world are challenged by climate change impacts, and discusses the legal resources available to confront those challenges.

Indigenous peoples occupy a unique niche within the climate justice movement, as many indigenous communities live subsistence lifestyles that are severely disrupted by the effects of climate change. Additionally, in many parts of the world, domestic law is applied differently to indigenous peoples than it is to their non-indigenous peers, further complicating the quest for legal remedies. The contributors to this book bring a range of expert legal perspectives to this complex discussion, offering both a comprehensive explanation of climate change-related problems faced by indigenous communities and a breakdown of various real-world attempts to devise workable legal solutions. Regions covered include North and South America (Brazil, Canada, the US and the Arctic), the Pacific Islands (Fiji, Tuvalu and the Federated States of Micronesia), Australia and New Zealand, Asia (China and Nepal) and Africa (Kenya).

This comprehensive volume will appeal to professors and students of environmental law, indigenous law and international law, as well as practitioners and policymakers with an interest in indigenous legal issues and environmental justice.

Climate Change and Indigenous Peoples
The Search for Legal Remedies
Edited by Randall S. Abate and Elizabeth Ann Kronk

Contents & Contributors

Foreword Stacy Leeds

PART I: INTRODUCTORY CONTEXT AND PRINCIPLES
1. Commonality Among Unique Indigenous Communities: An Introduction to Climate Change and its Impacts on Indigenous People Randall S. Abate and Elizabeth Ann Kronk
2. Introduction to International and Domestic Climate Change Regulation Deepa Badrinarayana
3. Introduction to Indigenous Peoples’ Status and Rights under International Human Rights Law Lillian Aponte Miranda
4. Introduction to Indigenous Sovereignty Under International and Domestic Law Eugenia Charles-Newton and Elizabeth Ann Kronk
5. Climate Change and Indigenous Peoples: Comparative Models of Sovereignty Rebecca Tsosie
6. Indigenous Environmental Knowledge and Climate Change Adaptation Maxine Burkett

PART II: GLOBAL PERSPECTIVES

SOUTH AMERICA
8. REDD+ and Indigenous Peoples in Brazil Andrew Long
9. REDD+: Climate Justice or a New Face of Manifest Destiny? Lessons Drawn from the Indigenous Struggle to Resist Colonization of Ojibwe Forests in the Nineteenth and Twentieth Centuries Philomena Kebec
10. Lower 48 States of the United States of America Natural Resource Development and Indigenous Peoples Sarah Krakoff and Jon-Daniel Lavallee
11. Climate Change and Tribal Water Rights: Removing Barriers to Adaptation Strategies Judith V. Royster

ARCTIC
12. Canadian Indigenous Peoples and Climate Change: The Potential for Arctic Land Claims Agreements to Address Changing Environmental Conditions Sophie Thériault
13. America’s Arctic: Climate Change Impacts on Indigenous Peoples and Subsistence Peter Van Tuyjn
14. The Saami Facing the Impacts of Global Climate Change Irina L. Stoyanova

ASIA
17. Fiji: Climate Change, Tradition and Vanua Victoria Sutton
18. Islands in the Stream: Addressing Climate Change from a Small Island Developing State Perspective Clement Yow Mulalap
19. The Rising Tide of International Climate Litigation: An Illustrative Hypothetical of Tuvalu v. Australia Keely Boom

AUSTRALIA AND NEW ZEALAND
20. The Impacts of Climate Change on Indigenous Populations in China and Legal Remedies Wenxuan Yu, Jingjing Liu and Po Dong

AFRICA
22. Climate Change Impacts to Aboriginal and Torres Strait Islander Communities in Australia Megan Davis
23. Negotiating Climate Change: Māori, the Crown, and New Zealand’s Emission Trading Scheme Naomi Johnstone
